Free From Food/Functional Food Expo – the only dedicated showcase of free-from and functional food and drink in Europe – returns for its fourth year this June. The show has an impressive line-up of exhibitors specialising in free-from products, speakers and new attractions. This year’s event will feature more producers than ever before – plus additional features including vegan, lactose-free

and functional products – as well as dedicated UK, Finland and Ireland pavilions and a functional food section.
